Rashmi,

Attached is a document with our questions regarding the Clothianidin Citrus 18. Let us know if you have any questions or need anything clarified. Thanks.

Subject: Clothianidin Citrus S18 Question and Brief Meeting Request
Importance: High

Hi Rashmi,

I have another question from BEAD related to the registered alternative neonics: imidacloprid and thiamethoxam that are both available for soil drench use.

Can citrus growers use either imidacloprid or thiamethoxam instead of clothianidin for the same purpose (young bearing trees, soil drench)?

Are you available for a quick discussion tomorrow to check-in before next Tuesday's meeting (you, Amy, Kelley)?

Let me know what time is good for you and I will schedule 30 minutes.

Thanks,

Stacey
